### REPORT ON

#### Management of the various types of degradable and non - degradable waste

P.E.S. College of Science, Arts&Commerce is committed towards effective management of waste generated. College employs the policy of 3R's i.e., reduce, reuse and recycle. Awareness is given to students and staff in order to reduce waste generation by adopting right lifestyles.

#### Waste management process is as follows:

**Segregation:** The generated waste is segregated into appropriate dustbins (dry, wet.... etc) that are provided in the prominent places within the campus.

**Collection and Processing:** The segregated waste is collected and processed. Different processing techniques like degradation, storing and selling, disposal, etc., are followed based on the type of waste.

#### Waste management strategies adopted in the campus are as follows:

##### ▪ Solid Waste:

The biodegradable and non-bio degradable wastes are segregated and processed. Biodegradable waste generated in the campus includes leaf litters, papers, food waste, wood, clothes, etc. Non-biodegradable waste comprises of single-use plastic, reusable plastic, metals, glass, etc.

Biodegradable wastes are processed using two vermicomposting units and two aerobic-composting units installed in the campus. The compost produced is utilised for manuring gardens for growing vegetables, fruits, flowers, ornamental plants and trees.

Paper, reusable plastic, metals and other scrap materials that can be recycled are sold to scrap vendors.

Food waste generated in canteen and hostel mess is highly insignificant due to the continuous effort of creating awareness among students regarding value of food. Food waste collected is handed over to cattle and pig rearing entrepreneurs.

Few plastic water / juice bottles are used as planting saplings in terrace garden.

Few Single-use plastic, glass, and old clothes are disposed by handing over to Mandya City Municipality (MCMC) on daily basis.

##### ▪ Liquid Waste

The waste water generated is let into the underground drainage facility provided by MCMC (Mandya city municipal council).

##### ▪ Biomedical Waste

Sanitary napkins, cotton swabs, bandages are incinerated in thermal incinerator. Microbiological samples and culture media are autoclaved and disposed in labelled specific polythene bags and then handed over to MCMC.

#### ▪ E-Waste

E-wastes like computers, floppy disks, printer cartridges, wires, pen drives, batteries, bulbs, tube lights, are rarely generated. Buy-back arrangement has been made for disposal of batteries. Equipments procured through governmental sponsorship (UGC, etc.,) are stored and disposed as per respective guidelines. Other e-wastes are handed over to scrap vendors.

#### ▪ Waste Recycling System

The initiatives are:

- ✓ Unused sheets of the test booklets are used as scribbling pads.
- ✓ Single-use plastic bottles are used to grow plants in the bottle garden.
- ✓ Single-use plastic Buckets, Drums, Fruit crates, Thermo cols, Vehicle tyres, Fridge are used to grow plants in the terrace garden.
- ✓ Damaged wires & Refrigerator are reused during experiments, to reduce and recycle e-waste.
- ✓ E-Waste wires are used to grow plants in the terrace garden.

#### ▪ Hazardous Chemicals and Radioactive Waste

Chemicals are neutralised and diluted before discarding into the drain. Laboratory experiments do not require radioactive elements.

**CIRCULAR REGARDING  
ENVIRONMENTAL CONSCIOUSNESS AND SUSTAINABILITY ON WASTE MANAGEMENT**

The awareness and practice with respect to environmental consciousness and sustainability issues are of paramount importance in creating and maintaining clean, safe and green environment. In this regard, all stake-holders have to adopt sustainable and eco-friendly practices.

Hence, all staff and students are hereby directed to practice the following:

**1. Waste Management**

- The waste shall be segregated at source.
- Use specific dustbins for different types of wastes such as bio-degradable. Non-biodegradable, chemical, e-waste, bio-medical waste, etc,
- Adopt the motto of 3R's i.e., Reduce, Reuse and Recycle.

### **POLICY ON Degradable & Non- Degradable waste Management**

The awareness and practice with respect to environmental consciousness and sustainability issues are of paramount importance in creating and maintaining clean, safe and green environment. In this regard, all stake-holders have to adopt sustainable and eco-friendly practices. The specific policies on various aspects of environmental consciousness and Sustainability are stated.

#### **1. Waste Management Policy**

The focus of Waste Management Policy of P.E.S College of Science, Arts & Commerce is to process the waste optimally by considering public health, conservation, economics, and environmental Conditions. The College works with the motto of 3R's i.e. Reduce, Reuse and Recycle.

The Waste Management Policy is as follows:

- a. Waste shall be segregated at source. The producer / generator shall put / dump the waste into appropriate dustbins.
- b. Separate dustbins shall be provided for various types of wastes in the prominent places within the Campus.
- c. Dustbins shall be cleared twice a day.
- d. Different types of wastes shall be processed separately using different processing techniques like degradation, storing and selling, incineration, etc.
- e. Single use plastic shall be banned.
- f. Composting units shall be installed in order to process biodegradable waste.
- g. Old newspapers, magazines, books, used test booklets, used papers, reusable plastic, metals and other scrap materials that can be recycled shall be sold to scrap vendors.
- h. Old clothes, single-use plastic, broken glass, oratory glass wares shall be handed over to Mandya city Municipality (MCM) on daily basis.
- i. Wooden wastes shall be used as fuel for conventional incinerator that is used for burning used sanitary napkins.
- j. Grey water shall be recycled as much as possible.
- k. Liquid chemical waste from various laboratories shall be diluted before discarding in wash basin.
- l. Biomedical waste such as used sanitary napkins, cotton swabs and bandages shall be incinerated.
- m. Tissue cultures and media shall be heat killed.
- n. E-waste generated through equipment purchased from governmental sponsorship (UGC, etc.) shall be stored as per respective guidelines.
- o. Other e-wastes shall be sold to scrap vendors

- p. Buy-back arrangement, wherever possible, shall be made for disposal of batteries which contains heavy metals.
- q. Chemical waste shall be neutralised and diluted before discarding.
- r. Outdated and decolourised chemicals shall be stored separately and returned to the supplier.
- s. Organic pesticides shall be used.
- t. Organic floor cleaners shall be used,
- u. Appropriate waste recycling system shall be adopted.

### ರದ್ದಿ ಖರೀದಿ ಆದೇಶ

ಈ ಮೂಲಕ ತಮಗೆ ತಿಳಿಸುವುದೇನೆಂದರೆ, ನಮ್ಮ ಕಾಲೇಜಿನ ಹಳೆಯ ದಿನಪತ್ರಿಕೆ ಹಾಗೂ ಹಳೆಯ ಆಸ್ಟೆನಮೆಂಟ್ ಪುಸ್ತಕಗಳ ರದ್ದಿ ಖರೀದಿಗಾಗಿ ತಾವು ಸಲ್ಲಿಸಿದ ದರಪಟ್ಟಿಯು ಅತ್ಯಂತ ಹೆಚ್ಚಿನ ದರವಾಗಿದ್ದು, ಸದರಿ ರದ್ದಿ ಸಾಮಗ್ರಿಗಳನ್ನು ತೂಕ ಮಾಡಿ ತಾವು ನಿಗದಿಪಡಿಸಿ ಸಲ್ಲಿಸಿದ ದರದಂತೆ ಕಾಲೇಜಿಗೆ ಪಾವತಿಸಲು ಸೂಚಿಸಲಾಗಿದೆ.
