

Alumni Feedback Analysis on Curriculum 2020-21

Action Taken Report

Observation	Action taken
Academic flexibility in terms of course combination is offered in the college	In CBCS system, students are advised to study the subjects of their choice. This flexibility is offered by the university by default.
Usage of ICT for teaching and learning is more required	As the time demands, blended learning has given importance in education system. More number of ICT enabled class rooms have to be introduced in the coming years.
Curriculum helped to develop life skills too	Along with regular teaching based on university syllabus, our college introduced personality development course as a certificate programme which helps students to adopt life skills.

Conclusion

Thus the feedback given by the stakeholders were analysed and suitable action was taken so as to satisfy the expectations of students and employers. This further helped us to improvise our activities as per the expectation of stakeholders

Employers Feedback Analysis on Curriculum 2020-21

Action Taken Report

Our employers are our major stakeholders, feedback of whom gives us input regarding enhancing the employability of our students. Their feedback is valuable for us as it provides the basis for further enrichment in curriculum aspects and overall performance of students. The employers are happy with the student of our institute and they rated the performance of our students. They stated that they are happy that the employee is knowledgeable, updated with latest trends in fields, practical in solving issues related to work, creative in executing the work and effective communication skill. Few employers have disagreed towards employee's analytical skills. Hence the college has decided to motivate the students to participate more in certificate courses like soft skills, personality development, and life skill programmes. So that the students get more knowledge and courage to face the current trends in global market, hence that would help them to improve their analytical skills.

Students Feedback Analysis on Curriculum 2020-21

Action Taken Report

Students' feedback on curriculum was collected and analysed. We have collected 1052 responses on curriculum aspects of various programmes designed by the University of Mysore, Mysuru. Programme wise students feedback was analysed and collected the suggestions from all the departments. Based on their suggestions, management has taken certain actions to improve further. Major observations from the student's feedback are as follows:

Observation	Action taken
Curriculum is designed to enhance employability	Decided to conduct more certificate courses to both UG & PG to enrich the employability skills among students
Availability of books and reading materials prescribed in syllabus	Management has decided to procure more number of books and study materials
Syllabus enables to improve ability to formulate/ analyse/ solve problems and to meet company/ industry requirements	Each department will make an effort to take up more internship programmes and field visits to give students practical exposure to face the challenges and that would influence them to increase their knowledge to meet the industrial requirements.
